CIRRUSSOFT

WE SPECIALISE IN CREATING COMPANION APPLICATIONS FOR SHAREPOINT AND OTHER OFFICE 365 PRODUCTS

PRODUCT SPACE

SharePoint is a phenomenally successful product with millions of daily users.

Getting the most out of SharePoint can be tricky unless you have a team of dedicated developers and specialists.

Thankfully, Microsoft have provided the ability to enhance the platform with Add-Ins (apps) that extend its functionality and usefulness.

Cirrussoft SharePoint Add-Ins are simple to install, add market specific and hard to achieve functionality, lower the technical barriers to enhancing the platform and are an affordable alternative to lengthy bespoke development.

- Simple to install
- Cost effective
- Enhances / Extends SharePoint
- Adds rich functionality
- Range of Applications
- Well Supported
- Add to your service offerings
- Enhance your consultancy

WHO ARE WE?

We are a London based software consultancy who specialise in creating companion applications for SharePoint and other Office 365 products.

We have decades of combined experience working for major blue chip companies, developing and supporting successful and widely distributed software for all versions of SharePoint.

Apps & Add-Ins

We offer a wide range of applications to automate your business processes, facilitate smooth communication and provide additional functionality. From Apps to bespoke Add-ins, we have all you need to enhance SharePoint.

If you have an idea for a new App or a client specific need, please get in touch. We're always keen to explore new opportunities.

DOCUMENT MERGE

Document Merge for SharePoint is the simple, fast and clean way to merge SharePoint list data into predefined Word, Excel and PowerPoint document templates without code.

SHORT URL

ShortUrl for SharePoint is the best and easiest to use solution for the creation, editing and reporting on, of vanity and shortcut hyperlinks. Custom domain names are also supported.

IMAGE MAPS

Image Maps for SharePoint allows users to create interactive images with eye-catching content from within SharePoint. Create one image with "clickable" hotspots, for beautiful navigational signposts.

IMAGE EDITOR
for SharePoint

Image Editor for SharePoint is a simple & powerful way to edit or enhance images from within SharePoint. Have full control over your image including; layers, crop, resize, text, shapes and more.

TIMELINE
for SharePoint

Timeline for SharePoint gives you a completely new view on events, based on list data or list/document metadata. At a glance viewing of the timelines gives an appreciation that can't be seen with text dates.

CONTENT SLIDER
for SharePoint

Content Slider for SharePoint will help you to showcase your work in an impressively creative way. It enables your visitors to flip through slides to consume various pieces of content at their own pace.

PAGE GUIDE
for SharePoint

Page Guide for SharePoint is the simple, fast and most effective way to incorporate interactive help within your SharePoint pages by way of a step-by-step walk-through for selected page elements.

PDF WIZARD
for SharePoint

PDF Wizard for SharePoint is the an intuitive and cost effective way to manipulate, convert and combine PDF and other common file formats into PDFs from within SharePoint. Includes password protection too.

VERSION VIEWER
for SharePoint

Version Viewer for SharePoint os the most comprehensive way to examine version history and quickly see the change differences at a glance with easy exports to Microsoft Excel.

SUCCESS STORIES

"We have found it easy to use and we can customise the URL to meet our needs. Our end users are now much more comfortable with using shorter URLs for their links and email announcements."

dun & bradstreet

"ShortURL has enabled us plug a significant gap in SharePoint functionality which our users had asked us to address."

UNIVERSITY OF OXFORD

"Since we started using our booking system, we have booked over 5000 courses - each of which will have created a minimum of 2 letters merged using the software. This function has saved us a huge amount of admin time."

KNW TRAINING

"We now provide professional looking, custom branded URLs in context with our content. Short URL app allows for the in-house management of custom named URLs which are easy to remember and save time!"

red

★★★★★
"I don't know how I coped before Document Merge!"

★★★★★
"App Working Great with Great Customer Service"

★★★★★
"Slick and simple plugin. Just works! Recommended"

★★★★★
"Awesome App – Even works for OneDrive Links!"

★★★★★
"Just what we needed!"
