- Easier to use

CONTENT SLIDER

Content Slider for SharePoint

Create captivating slides with the dynamic content surfaced from your SharePoint lists.

Generate a Highlight Reel of what's happening

Auto Slide feature & 8 Scroll effects

Available in the Microsoft Store now

The SharePoint Content Slider will help you to showcase your work in an impressive creative way. The Content Slider is added to a designated space on your site and enables your visitors to flip through slides to consume various pieces of content at their own pace.

With our easy to use, advanced Content Slider Builder you can quickly customise, edit and generate Content Sliders to surface the dynamic content of any SharePoint list without coding. Simply choose your List, define the selected fields to display, live preview and save.

The generated Content Slider is fully responsive and optimised to work across all devices and screen sizes.

Cirrussoft have decades of combined experience with SharePoint consultancy & application development. We're here to help you, help your clients by creating best of breed, companion applications.
